Do you often get annoyed by Audio Conferencing?

- Have to reserve conference calls in advance.
- Can't see participant (of Audio Conf.) status in real time. Don't know who left the conference and when.
- Get disturbed with the background noise because participant is in a crowded area.
- Some participant presses a "Hold" button on his mobile and whole conference gets disturbed.
- Are you still calling participants "one -by - One" . By the time last called participants joins, Others are holding.
- Find yourself restricted when it comes to recording conference calls

.....The solution is there to get rid of all these problems

What we have for you with MeetingKaro

- Put together an online meeting and invite participants to join your call without the assistance of an operator
- Conduct a reservation less audio conference calls and web conferences at 24/7
- Make your workplace mobile where your people can log in from anywhere and join the conference.
- Reserve a self-service teleconference call and have the ability to dial in at your scheduled time
- All Conferencing offers the same dial-in number and Access code for every conference you conduct.
- Eliminate disruptive background noise during presentations.

 - ┌ o Strict Caller Number Authentication or Conference ID and PIN

KEY FEATURES

- ┌ Multiple Message Delivery on a Massive Scale: Send messages out via some or all modalities (SMS, eMail) to ensure that important messages are received.

- ┌ Online Conference Management: Oversee and control the entire conference call from your web browser. Our online conference manager gives you the whole picture in real-time.
 - ┌ o Watch new attendees join your conference call
 - ┌ o Identify callers with questions and unmute them
 - ┌ o Manually exit a caller from the conference
 - ┌ o Handle all conference features

- ┌ Free Conference Call Recording: Record your conference call instantly with all participant interaction. Recordings are compressed and converted to WAV format and archived in your account.

Special Feature – Active Dashboard

The screenshot displays a conference management interface. At the top, there are controls for the conference room (234742), a 'Check / Invite Participants' dropdown, and a status indicator 'Invitees, Not joined yet!'. An 'End Conference' button is visible in the top right. The main area contains a table with the following data:

Name	Mobile	Joined	Status	Call Type	Mute	Hangup
Vipanth	88855	2014-04-23 15:34:14	UnMute	OUT	◀ Mute	Hangup
subhash	80089	2014-04-23 15:34:17	UnMute	OUT	◀ Mute	Hangup
AnilKumar	94413	2014-04-23 15:34:17	UnMute	OUT	◀ Mute	Hangup
Nagaraj	99082	2014-04-23 15:34:20	UnMute	OUT	◀ Mute	Hangup

Below the table, a list of call activities is shown:

- AnilKumar: Ringing/No Answer
- subhash: Call In Progress
- AnilKumar: Call In Progress
- Vipanth: Call In Progress

At the bottom, there are indicators for 'Conference Activities' (0) and 'Dialing Outbounds' (0).
